

XEON: GLOBAL PRESENCE, LOCAL EXCELLENCE

FREIGHT FORWARDING AND CUSTOMS CLEARING SERVICES

Xeon offers its customers specialist air, ocean and road freight forwarding and clearing solutions, which are bolstered by the experience of our global network and vital in-country knowledge. Our services are designed around each client's individual requirements, focusing on innovation and integrated solutions- saving our customers time and money and ensuring that shipments reach their final destination safely and on-time.

Xeon specializes in providing flexible solutions, providing:

- Increased order visibility
- Reduced inventory through consolidation
- Control of on-time delivery cycles
- Reduced overall supply costs

Our regulatory compliance includes

- ISO 9001: 2015 accreditation
- Compliance to Black Economic Empowerment (BEE) codes of practice - Level 1, black female ownership points
- Continuous improvement and quality management

As an end-to-end supply chain provider Xeon offers:

- In-house, duty paid and bonded facilities to its customers
- Road transport serviced by Xeon's internal road freight division
- Holistic trade support
- Real time communication control and on-time service

Our forwarding and clearance services for various import and export consignments include

Guidance and consultancy on pre and post shipment service

Liaison and follow up with various Government Authorities, Customs and Excise divisions

Pre and post shipment formalities, endorsements with various airlines, ocean carriers and landside authorities
